PRODUCT DETAILS

For when you're on the go

With a built in rechargeable battery that gives up to 15 hours of listening playback, per charge, and small and lightweight enough to fit in your pocket, Move R3 is perfect for those with an active lifestyle.

Built for the great outdoors

Move R3 is built with a tempered glass screen front to guard against knocks and scratches, making it durable enough to withstand the wear and tear of traveling.

Great sound you'll love

Move R3's included noise-isolating headphones allow you to listen to music, interruption free making it perfect for listening in busy areas. Move R3 also includes separate bass and treble controls, meaning you can adapt the sound depending on what you're listening to.

User friendly interface

Move R3's ultra-clear OLED display makes for easy navigation through the menus and clear viewing of the station information. With 3 dedicated station preset buttons and 20 in total, you can quickly access the station of your choice with little hassle.

Switch on to digital radio

High-detail digital quality sound, a wide range of stations and scrolling station information are just some of the features you receive when listening to DAB digital radio. You won’t ever have to search for a station again as DAB radios automatically find all available stations in your area, which can easily be selected by name. Our radios also still include FM for any stations that have not yet gone digital.

Move R3 is also Digital Tick approved so you can rest assured that you’re ready for any future FM to digital radio switchover.

Designed and engineered in the UK

Like all our products, Move R3 was designed and engineered in the UK by our expert engineering teams. This not only ensures great sound and impressive build quality, but allows us to offer the reassurance of a 2-year warranty as standard.
