PRODUCT DETAILS

If you’re looking for a great stereo digital radio or superior sounding Bluetooth speaker, Pop Maxi with Bluetooth from our Pop family gives you the best of both worlds. Listen to your favourite digital radio station or use Bluetooth to stream your favourite song, playlist or internet radio station wirelessly from your mobile or tablet.

Your music, no wires

Built-in Bluetooth turns your radio into a great wireless speaker – just choose your favourite music, streaming service or internet radio station and play it direct from your phone or tablet without trailing wires.

Looks good, sounds great

Pop Maxi with Bluetooth doesn’t just look good. The dual speakers create a superior stereo sound, giving greater clarity and volume to the music you love. Like all our other Pure digital radios, Pop Maxi with Bluetooth has been engineered and hand tuned by our audio experts in the UK to ensure the best possible sound.

Switch on to digital radio

DAB digital radio brings you high-detail digital-quality sound, lots of stations (many exclusive to digital) and uses scrolling text to show you track titles, programme names and more. Digital radios automatically find all your available stations and let you select them by name, and all our digital radios also include FM for any stations that have not yet gone digital. Pop Maxi with Bluetooth is also Digital Tick approved so you can rest assured that you’re ready for any future FM to digital radio switchover.

Packed with features
