PRODUCT DETAILS

Chronos CD Series 2 features a stylish design and impressive audio, from DAB digital radio, FM or CD.

With lots of easy-to-use bedside radio features, Chronos CD Series 2 fits the maximum audio performance into the minimum space. The light sensor automatically adjusts the display brightness and front-panel connectors enable you to easily connect your iPod/MP3 player and headphones. There's also a USB PowerPort, for charging mobile devices.

Chronos CD Series 2 has four radio alarms, each of which can be set for weekdays only, weekends only or as a one-off. A sleep timer allows you to drop off to your favourite station and there’s an adjustable snooze time for an extra lie-in.

If you’re new to DAB digital radio you’ll love the high-detail, digital-quality sound, lots of stations (many exclusive to digital) and scrolling text displaying track titles, programme info and more. Digital radios automatically find all your available stations and let you select them by name, and like all our DAB digital radios, Chronos CD Series 2 also includes FM for any stations that have not yet gone digital.
