PRODUCT DETAILS

Our award winning Evoke range is a family of classic digital radios - brought right up to date. The perfect introduction, Evoke H2 is a stylish DAB digital and FM radio with compact footprint that will fit in perfectly anywhere, from the bedside table to the kitchen.

Perfect portable radio

Use mains power, or enjoy up to 30 hours of portable listening with an optional rechargeable ChargePAK B1. ChargePAKs are an economical and environmentally friendly fit-and-forget solution that charges in your radio while it is connected to the mains so you're always ready to go.

Compact but feature-packed

With its small footprint, Evoke H2 makes an ideal bedside or kitchen radio. Features include 20 presets for quickly selecting your favourite stations, large easy-to-read clock, a sleep timer to automatically switch off your radio and a convenient countdown kitchen timer. There's also a tone or radio alarm, stereo headphone socket and an aux-in socket which lets you plug in your mobile or tablet and hear your own music through your radio.

Switch on to digital radio

DAB digital radio brings you high-detail digital-quality sound, lots of stations (many exclusive to digital) and uses scrolling text to show you track titles, programme names and more. Digital radios automatically find all your available stations and let you select them by name, and all our digital radios also include FM for any stations that have not yet gone digital. Evoke H2 is also Digital Tick approved so you can rest assured that you're ready for any future FM to digital radio switchover.
